Monday Jan. 11

We recently sent you an action alert requesting your presence at an Assembly Revenue & Tax Committee hearing on AB 656, a proposed oil severance tax.

This tax will mean the loss of nearly 10,000 jobs, not only for oil company employees but for the companies who provide goods and services to oil producers throughout California.

Please come to Sacramento to show the Legislature the faces of the people whose jobs and businesses are at stake.
